

Pre-fit impact on μ : $\Delta\mu$

$\theta = \hat{\theta} + \Delta\theta$	$\theta = \hat{\theta} - \Delta\theta$	0.003	-0.002	-0.001	0	0.001	0.002	0.003
----------------------------------------	----------------------------------------	-------	--------	--------	---	-------	-------	-------

Post-fit impact on μ :

$\theta = \hat{\theta} + \Delta\hat{\theta}$ $\theta = \hat{\theta} - \Delta\hat{\theta}$
